## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 6-7 and 14-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 6, it is not clear what “second biasing means allows **bi-directional rotation** of said pivot assembly” encompasses.

In claim 7, it is not clear what “second biasing means allows **uni-directional rotation** of said pivot assembly” encompasses.

In claim 14, it is not clear what “shaving cartridge rotates to a pivot going from a center pivot to a guard-bar pivot” encompasses.

In claims 15-16, it is not clear what “shaving cartridge rotates to a pivot going from a center pivot substantially on said shave plane to a guard-bar pivot substantially on said shave plane” encompasses.

In claim 17, it is not clear what “shaving cartridge rotates to a pivot going back from a guard-bar pivot substantially on said shave plane to a center pivot substantially on said shave plane” encompasses.

In claim 18, it is not clear what “unidirectional pivoting” encompasses.

In claim 19, it is not clear what “bi-directional pivoting” encompasses.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. As best understood, claims 1-7, 10-11, 13-19 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Douglass et al.

Douglass discloses the invention including a pivot frame 42, a pivot assembly 46, a blade assembly 1, first biasing means 48 and second biasing means (the pin that connect the member 46 with the member 42).

***Allowable Subject Matter***

5. Claims 8-9 and 12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kiraly et al., Richard et al., Andrews, Coffin and Min are cited to show related device.
